CAMERON, MILAM COUNTY, TEXAS, THURSDAY, AUGUST 28, 1941.

EIGHT PAGES TODAY

NUMBER 20

Last Sunday afternoon with my golf physique reduced to a sweltering mass by the blistering heat of the summer sun, I sat on the gallery of a rambling ranch house far away in the hills.

Aside from the discomforts of the weather which I sought to alleviate by removing my shirt and throwing a wet towel about my neck, I felt this spot was about the most peaceful place on the earth.

All about me were the green hills and the river emptying itself over the rocks and running away to the sea.

I thought of the security that is ours, which is the inherent birth right of every American, and I thought about what and how much we have to defend in this nation.

The time having arrived someone turned on the radio and we heard that great Englishman, Winston Churchill, giving his impressions of his recent meeting with President Roosevelt somewhere on the North Atlantic Ocean.

In these days of vacillation and hesitant leadership, while we are all led to believe that great danger threatens our national security, my natural reaction is that I wish I might claim as much confidence in Mr. Roosevelt's intention to act as Mr. Churchill indicated for himself.

For three days the President of the most powerful state in the world and a representative of His Majesty's Government and Dominion across the seas, talked and visited. What they said can only be imagined. The immediate future developments in the war may disclose to the apt mind, things agreed upon, but only history can give us an intimate picture of what they did and what they said to each other there on the waters which have been declared the battle place for survival of the world that we know and care about.

With only the great hulks of fighting ships and a few men of note, the principal two actors in this dramatic episode, we trust formulated a plan of action that will work out as surely and as certain as the mellow tongue of the Great Churchill described to me in the peace and quite of a Texas Ranch home.

To my way of thinking this meeting of Churchill and Roosevelt is the most powerful symbol of action yet taken in this war.

I need not tell you that we were all disappointed when the President came ashore some days later to say that we are no nearer war than we were six months ago or a year ago. How much better if he had said "There are grave events to come and momentous decisions must be made." Instead, we wonder of this most powerful state in the world will find the courage to assert itself to preserve the precious liberties that are the life blood of all who speak the English tongue.

Mr. Churchill said the President of the United States came aboard and to the quarter deck of his Majesty's ship, the Prince of Wales, and there with the sun about them and on a calm sea, they held a religious service. Roosevelt, the Anglican, and Churchill, the Episcopalian. Ministers of both faiths were aboard the ship.

Mr. Churchill told about the songs they sang.

Here in the midst of a world torn by the madness of error, the heads of the world's two largest empires felt obliged to worship.

They might have been leaders of another kind, surrounded by their armies and all the power that the genius of destruction could marshal, but instead they emphasized a faith which is so inherently a part of humanity the world over that when the storm has subsided the strength to overcome the difficulties we now face may after all have been found in the example of two great men who felt they could have strength only if they became humble and contrite of heart.

To those of us whose faith is not clad in shining armor or braced by the assurances of so much common acceptance, this example on the great Atlantic wastes, makes us wonder and wish that we might not also be somewhere near belief.

Louis G. Guest of Rockdale transacted business in Cameron Tuesday.

SHOW DOWN IN FAR EAST LOOMS

COACH WOOD STARTING YOEMEN SEPTEMBER 1

They always advertise fur coats in August and football is a late Dog Days development also.

Coach Carrol Wood announced Wednesday that the Yoemen will start work here on Monday, September 1st at 8 a. m.

Practice will be resumed at 7:30 Monday evening and each day this schedule will be the same.

All prospective members of the team should report at 8 a. m. Monday, to meet their coaches and register for the 1941 play.

What the prospects are nobody can tell. They never have been bright but Coach Wood always gets the very best out of limited number of men. The team should be better than last year but will not go far in the district unless very much better.

Probation for Boy Who Attempted Jail Delivery in City

Neal Bailey, 16 year old Cameron boy who attempted to deliver from jail here last Saturday night, J. B. Lane and Luther Russell of Milano, was tried in court here late Wednesday and released on probation.

Bailey will be in the custody of Allan Dodson for a period of four years. He will be 20 when the sentence is ended. Good behavior will be necessary if he escapes reformatory.

On first offense the district attorney feels that leniency should be exercised because it is better to err on the side of mercy than justice for first offenses where the defendant is so young.

2 years Reformatory For Milano Boys Who Confess Stealing

Two years in the State Reform school was the sentence for J. B. Lane and Luther Russell Milano boys who confessed to stealing gasoline, auto tires and typewriters from the Milano school.

First arrested on Saturday night August 16th they were given their freedom on probation. Last Saturday they staged a more extensive theft and were again arrested.

Lane said he did not mind so much the sentence as he did being taken in by small town officers. Lane stole a car in Chicago and no doubt fancies himself something of a big time gangster. He is 16 years old.

Cecil Kirk of Milano, another boy, was held in connection with thefts also but has been released because it was his first offense.

Neal Bailey will be tried Wednesday, it was said, for an attempt to deliver the boys from jail Saturday.

Tried in Auto Crash Case; Found Not Guilty

Pearl Carpenter of Palestine was found not guilty in county court here Thursday.

He was charged in the death of Cleveland Buffington near Gause in February of this year. His car struck Buffington and caused his death.

The accident according to the court verdict was unavoidable and a verdict of not guilty resulted.

Buffington who was employed by the Willard B. Smith store in Gause was parked by the roadside and repairing a tire when struck by the Carpenter machine.

Dr. Newton has recently completed a clinic here and while he regrets to be away from his practice for three weeks he feels he must take advantage of every modern course of surgery and medicine.

Methodist Pastor to Repeat Sermon Topic "My Church" Sunday

Because of urgent requests from members of the congregation, the pastor of the Methodist Church, will preach next Sunday morning on the subject, "My Church." This sermon was preached several weeks ago at the beginning of our revival, to a small Monday morning crowd. We cordially invite the friends and members of the church to be with us Sunday at 10:50 a. m.

John W. Mills, Pastor.

Probated Youths Are Again Arrested; This Time Its Bigger Theft

Leniency and probation by the District Attorney Morrison for two Milano boys 15 and 16, was rewarded by another and bigger theft.

Luther Russell and J. B. Lane were arrested last Saturday night for stealing gasoline from tanks of road tractors at Milano. On Monday the boys were released on probation because of their ages.

Thursday afternoon Deputy Sheriff Carl Black arrested the boys again.

The boys according to a confession had stolen a set of tires from a road sweeper parked on the road side and owned by the State Highway Department, and also two typewriters from the Milano High School.

The typewriters were recovered in Austin Thursday and the tires were found hidden in the woods near Milano.

The boys are now in jail after a confession to District Attorney Morrison.

FORMER RESIDENT HERE DIES IN WICHITA FALLS

News of the death of Thomas E. Newell of Wichita Falls has reached Cameron friends and relatives.

Mr. Newell died Sunday, August 10th, and was buried in Wichita Falls the following Monday.

In the early eighties Mr. Newell came to Cameron and later was married to Miss Lillian McGregor, and the had made their home in Wichita since. She preceeded her husband in death about 18 months ago. Early Cameron settlers will remember both.

Mrs. Newell was the eldest daughter of the late Maj. W. M. McGregor of Cameron, a well known attorney. Mrs. Newell was one of the earlier belles of Cameron. She was a sister of the late C. P. McGregor of Cameron.

JAP AMBASSADOR AND ROOSEVELT CONFER

A show down in the far east was predicted today in usually informed Washington quarters.

Admiral Nomura, Japanese Ambassador to Washington, conferred with President Roosevelt early Thursday. Neither would discuss what took place at their conference but Nomura when cornered by newspaper men said he hoped he did not get his passports.

Secretary of State Hull earlier in the day made it plain that the United States will brook no interference with shipments to Russia. It was generally believed that Japan had protested but without intention to do anything about the shipments.

Japan has been denied the fuels she now seeks going to Russia. There was no statement in official Washington on what had transpired.

In the near east Iran had collapsed and it was reported had asked for an end to the war.

Russian and British troops invading Persia had achieved a quick knockout commensurate with that of the surrender of Denmark to the Germans.

While war on the eastern front had slackened some the Germans claimed new successes in air battles with the Soviet.

J. W. PITTS DIES AT GAUSE HOME SUNDAY

J. W. Pitts, pioneer citizen of the Gause community, died at his home there on Sunday.

Funeral services were held on Monday from the Hicks Baptist church with interment in the Hicks cemetery at 3:30 p. m.

A number of friends and acquaintances n Cameron attended the funeral.

Mr. Pitts had been in declining health for more than a year. His death was a blow to many in the community where he had lived for many years.

In Cameron it was known that Mr. Pitts was seriously ill but it was not known that his condition was critical and his death was a shock to many.

Mr. Pitts was engaged in farming and was known for his peach crops. He was responsible for a better production of peaches and gave much time to bees as well. His farm efforts were definitely on the side of science and progress.

It is not easy to give up men such as Mr. Pitts and the community of Gause and all sections will be impoverished by reason of his death.

ONLY 14 REGISTER HERE FOR AIR WATCH

The United States army through the Milam County Defense Council recently issued a call for 552 volunteers to man air watches.

Cameron showed such a lack of interest that only 14 registered on Saturday.

There was no indication of what other portions of the county did, but it was believed that General Apathy is giving orders and little or no attention is being paid to government efforts to awaken the people to their responsibilities.

Lack of aggressive leadership in Washington is responsible for a lack of interest on the part of the people.

The American people have had no occasion to believe this country is at war because no shots have been fired and no aggressive steps have been taken.

Until the country's leadership awakens it can hardly be expected that the American people become aroused.

HURT IN FALL

T. G. Sampson is gravely ill at his home in Cameron. Last week he fell and was badly injured. Mr. Sampson is the oldest man now living here who was born in Cameron.

Mr. and Mrs. Bailey Dunham of Houston are visiting his parents, Mr. and Mrs. L. J. Dunham.

Cameron Boy Held for Trying Jail Delivery In Cameron Saturday

Neal Bailey of Cameron was arrested Sunday night by Deputy Sheriff Carl Black for trying to help J. B. Lane and Luther Russell escape jail.

Early Saturday afternoon Bailey visited the boys and the plan was made then, said Mr. Black.

Later Saturday afternoon he brought the boys a paper with a saw inside it and pitched it into their window. The boys had one bar sawed off when the officers heard them. Neal was arrested and the other boys were moved into another cell.

It was learned Saturday by the Sheriff's office that J. B. Lane had also stolen a car in Chicago, Ill., some weeks ago, but before he left Chicago he painted the car and changed license plates and when he came to Texas he went to Houston and painted the car again to make sure no one would recognize it.

Hull Tells Japs in Tennessee Lingo "How Cow Ate Cabbage"

In a face to face talk Saturday in Washington, Secretary of State Cordell Hull and Admiral Nomura, Japanese Ambassador, are reported to have laid the cards on the table and in the language of a typical American broadcast Mr. Hull told the Japs how "the cow ate the cabbage."

When the Japanese Ambassador emerged from the conference he said the talk had been utterly frank, that he had been told in unmistakable terms what the United States will do and he also said that the position of his country was made plain.

Secretary Hull is a Tennessee mountaineer, and is reported to be the most proficient master of terse language as well as the most eloquent member of the government in Washington.

HARRIS OUTLINES HIS PLEDGES TO PEOPLE

Leo Harris of Rockdale, candidate for Representative, was in Cameron Thursday morning discussing with friends the election to be held on Saturday, August 30th.

Mr. Harris has issued a five point platform on which he bases his promise to render the people of Milam county a worthwhile service in the Legislature.

Mr. Harris said that one of the most important duties that will confront him will be to assist in the passage of a permanent road bond assumption law to relieve districts of any further burden. Also he said Milam county is badly in need of a more fair distribution of road funds.

Mr. Harris is receiving wide support in his part of the district and especially in his home city of Rockdale where he served for a number of years as Justice of the Peace.

Mr. Harris believes it is the duty of Texas to give the National Administration in Washington complete and loyal support for the defense of Democracy.

Mr. Harris believes that it is time to permanently settle questions of old age pensions and other social security benefits which have been pledged by law but as yet no adequate provision has been made for them. Mr. Harris pledges his efforts to protect the rights and interests of the aged people and the unfortunate.

Texas, as a farming state should have an alert representation and each year farming is sharing more and more in Legislation. Wages earners and business people will also have his support.

Mr. Harris pledges himself that his official life will be conducted with dignity, courage and security.

Mr. Harris is a man of wide experience and his friends point out that such men are needed in Legislative positions.

Sympathetic to the demands of the people for a more active representation in the House at Austin, he expressed confidence that his election would justify the confidence of the people because of his experience. Mr. Harris is a former member of the Oklahoma Legislature where he was influential in promoting beneficial legislation for his home district.

USO MEETING HERE IS WELL ATTENDED

Milam County is solidly behind the USO drive if representative attendance can be taken as an indication for on Friday night 42 Chairmen out of 47 precincts in the county were in Cameron.

Two USO meetings were held, one in Tracy and one in Conoley and that would indicate an attendance of all save 3 precincts.

Dr. Gordon Singleton of Baylor College gave the address, dwelling upon the broad aspects of the USO movement and what the nation has to defend.

Dr. Singleton appeared here for Mr. Whitehead, manager of the Temple Chamber of Commerce who could not attend.

W. C. Wiese, county chairman for the USO drive was highly pleased with the attendance, the address of Dr. Singleton and the progress the organization has made.

Three communities have already exceeded their quota: They are Rockdale, Buckholts and Ellison Ridge.

FRENCH ORGANIZING NEW GOVERNMENT

Revolt in France Tuesday had reached a stage of alarming proportions to the Germans.

About 125 members of the French Chamber of Deputies have revolted and organized a new government in Vichy in opposition to the Nazi controlled government of Marshal Petain.

It was said the Senators and House Members had established a system of underground communication and information suppressed by the Petain government had been relayed to the people.

The Petain government was said to have decreed dire punishment but Frenchmen were appearing more determined to stop further German encroachments.

CHRISTIAN SCIENCE SERVICES

"Christ Jesus" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, August 31st.

The Golden Text is: "I am not ashamed of the gospel of Christ, for it is the power of God unto salvation to every one that believeth" (Romans 1:16.)

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Come unto me, all ye that labour and are heavy laden, and I will give you rest. Take my yoke upon you, and learn of me; for I am meek and lowly in heart: and ye shall find rest unto your souls" (Matthew 11:28, 29.)

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "When Christ changes a belief of sin or of sickness into a better belief, then belief melts into spiritual understanding, and sin, disease, and death disappear." (Page 442.)

THE U. S. O.
HOW IT OPERATES

You can cast a vote of confidence in our Soldiers, Sailors, and Defense Workers during the weeks from August 17th to September 7th by giving to the USO in Milam County.

What did the Greeks have, in 1940, that roused the world's admiration? What did the Finns have in 1939? What does the RAF have today?

Such magnificent fighting spirit as this draws its strength from the morale of a whole people. The fighting forces are galvanized into miracles of achievement by the knowledge that a United Nation backs them up.

Guns, and planes; battle ships, and tanks, the men to use them and the munitions to replenish them—these are not enough, man does not fight by steel alone.

In this era of total war, a nation's real strength lies in a solidarity of spirit among the fighting forces, the defense workers, and the civilian population, that enables men and women to transcend their ordinary

workday selves and, in common resolve, perform better than they thought they could.

This we call morale. It is the one thing that can make a nation unbeatable.

The Government knows this, and, on the military and naval reservations, it is doing a grand job to promote morale.

But off the reservation a problem exists. Your typical citizen-soldier, when his hours of duty are over, starts for the nearby communities looking for a good time, for an outlet. What does he find?

The USO will supply the answer.

Mrs. Walter T. Heard of Mansfield, La., has been visiting her parents, Mr. and Mrs. C. B. Baskin, and her sister, Mrs. Elmer Williams. She will remain in Texas while Mr. Heard is on maneuvers in parts of Louisiana.

GERMANS FACING BIG UPHEAVAL IN EUROPE

Sabotage, violence, if not open revolt flared up in France Saturday.

German police were finding the job almost too difficult and it was said that the French people were being aided by Communist in their effort to discredit the Petain government and fight Germany.

Marshal Petain had created a special court to condemn disloyalty without trial. Already the Germans are rounding up Jews and many executions have taken place, but violence continues and the Germans it was said also face trouble in the Balkans, in Greece and in Crete.

Throughout all the occupied lands unrest was becoming so acute that open revolt faced Hitler to add to his difficulties encountered in the Russian campaign.

In a battle with rapidly changing fortunes the Soviet were represented as having launched a massive counter blow at the Germans on the central or Moscow front and have driven the Germans back with terrific losses and recaptured nine Russian villages.

The Germans were reported halted in the Leningrad area but the Finns have swept to within 50 miles of the city.

Perhaps one of the bloody battles of all history will be fought here as the Russians prepared to defend the city of Nicolai Lenin, father of the Soviet.

Odesa was still holding out and the Russians were reforming their lines for a greater defense of the Ukraine.

Dr. James Watson will leave Friday to spend his vacation in Kerrville. His nephew, George Bowman of Waco will accompany him.

Mrs. Laake used cut flowers and potted plants in the rooms and set the game tables on the "back lawn," which was bordered with growing flowers and ferns. Tallies and score pads were designs in flower bouquets. And the "flower" theme was further developed in details and rows of colored balloons marked the setting place.

Games of 42 were played, prizes were awarded to ladies; Mrs. John Matyastik, holding high score and Mrs. Myrtle Norff second high, Mrs. Henry Johns 84 prize. NAZI DENOUNCES IT AS DELIVERY TO REDS

The long expected invasion of Iran by Russia and England was under way today as troops of both countries crossed the frontier and engaged the army of Iran.

The invasion was denounced in Berlin as a cold blooded gesture on the part of England to turn over without provocation a small and defenseless country to Communism.

Germany has over run thirteen countries and delivered their people to Nazism. It is therefore without effect that they now complain of the allied invasion of Iran.

Soviet troops crossed into Iran from the Caucasian border while the British were reported to have invaded Iran from the coast line where large bases of supplies have been arriving both from the United States and from England.

An ultimatum was dispatched to the Iran government several days ago warning that country against the operation of Nazi Fifth Columnists and his warning was followed on Monday with an invasion of the armed forces of both Russia and Great Britain.

The invasion of Iran opens another theatre of war and forestalls a possible thrust by Germany into Asia Minor for an attack on the Suez Canal and upon India.

The army of Iran numbers about 150,000 men including one motorized and one armored division.

The speech of Winston Churchill on Sunday was regarded as a simultaneous warning to Japan from both the United States and Great Britain.

Mr. and Mrs. James McLean and children of Jackson spent the week end with his parents Mr. and Mrs. J. M. McLean. Their two sons, Bob and Billy remained for a two weeks visit.

Edward O. Schiller, Jr., who is stationed at Fort Sam Houston, writes that he has not yet been assigned his place in the army. He is a registered pharmacist, and will probably be assigned in some work pertaining to his profession.

Folks it just does not pay! 1. To have a good time at the expense of a guilty conscience the next morning. 2. To loose our temper at the expense of losing a friend. 3. To go to church in the morning if we are planning to go to the Devil in the evening.

But it will pay to attend our revival! People have literally covered the face of the earth up at the Baptist Church this week. We like Bro. Watt and his messages. His sermon on "Mr. Comesomers," "from Black pots to Silverwings," and "A Wampus Cat" have held our attention and at the same time mentally and spiritually opened our eyes. Bro. War Poll Will Be Conducted by Daily Herald; Starts Monday

The Daily Herald will conduct a poll of public sentiment on the war and what the position of the United States should be.

Full details together with a ballot will appear in the Daily Herald on Saturday and will continue each day thereafter for two weeks.

Due to indecision in Washington and a continued controversy over what public sentiment demands in this country, it was believed that a poll here might indicate a fair cross section of sentiment in the nation, with some allowance for political adherence.

Watch for the ballot and for particulars on how to cast it. You can vote your sentiments. No names are to be signed or printed on the ballot. Only one question may be involved. But that will be decided and all details will be announced tomorrow.

Dew Berries Bearing Continuously Are Shown in Cameron

Herman Kriegel, living about one mile north of Giddings exhibited a cluster of dewberries the other day picked from one of his bushes which represent a cross between dewberries and blackberries.

This according to Mr. Kriegel, is accomplished by pollenizing. He procured the wild blackberry bushes from M. Patschke of Fedor and crossed these with his own dewberry vines. They bear continually from May until September.

Mr. Kriegel is also making similar experiments in crossing black walnuts with English walnuts. This is done by pollenizing and grafting. He has produced a tree by this process which however did not as yet bear any nuts.—Giddings News.

NO OTHER PLACE TO SIT

This picture, taken recently, is said by U. S. O. officials to illustrate conditions near many training camps. The nightly and weekend influx of service men has overwhelmed small neighboring communities. Boys on leave can't get into the movies or decent hotels, restaurants or dance-spots. Some can't even find a place to sit. The United Service Organizations will maintain more than 360 spacious club-houses to relieve this demoralizing situation.

565 Farm Jobs Are Filled Through Local Employment Service

Farm work in Milam county is daily on the increase, according to R. C. Moody, local manager of the Texas State Employment Service, who reports that 565 farm jobs were filled through the employment office during the month of July.

Cotton chopping, onion pulling, pea picking and hay bailing were the major activities, with cotton gins tuning up for the big cotton harvest just around the corner.

Last month the employment service found 40 non-farm jobs for Cameron people, most of them being in national defense work and 14 of them being regular jobs of more than thirty days duration, Moody says.

There were 222 new applications for work taken at the employment office in July and a total of 318 claims filed for unemployment compensation.

Representatives of the service made 131 visits to local employers in an effort to locate job openings or to verify placements.

... that was the day I wilted away!

The way my energy ebbed during our last warm spell caused considerable confusion at the office. Sarah—she's my secretary—saw that I was wilting away. So, being rather clever, she sent out for grand-tastin' Grand Prize beer—ice cold and comfortin'.

Never having tried Grand Prize, my joy at sampling this sparkling picker-upper was something to behold. Believe me, the first glass of this golden ambrosia brought me bouncing back to my old self in a matter of seconds.

If you're keen to dodge warm-weather discomfort, pour yourself a glass of Grand Prize—the grand-tastin' beer. It's a treat you'll long remember... one you'll want to enjoy often. For your convenience, Grand Prize comes in Keglined cans as well as in bottles.

SAYS GAS TO SOVIET IS UNFRIENDLY ACT

Amid the fierce combat that seemed to engulf and mark for destruction millions of men now struggling on the Eastern Front in Russia, the far East flared up again today as the next possible war zone.

Japan has filed a vigorous protest with both America and the Soviet Union over shipment of aviation gasoline and other supplies to the port of Vladavostok in far Siberia.

The Japanese press has been demonstrating concern over the dispatch of American ships to that port which is only a short distance away from Japan.

The State Department in Washington would not discuss the matter but it was known that Japan has not only protested but has denounced the shipment as an unfriendly act.

With two years of appeasement to his credit in the far east it was a matter of speculation what the United States might do under its present leadership in the face of what many believe is almost certain indication Japan will attack us.

Congressman Thomas of Houston this morning said: "There will be a show down, possibly within three weeks between the United States and Japan. There may be some shooting with the United States Navy taking a part. We may lose a few ships and a few men, but this is better than sending an army from our shores."

Leningrad the city of Nicolai Lenin is under siege. Great air battles are today raging over the city and the Moscow communication early Wednesday said that 15 German planes have been shot down over Leningrad in the last 24 hours.

German successes were confined largely to the Ukraine area.

On the central front the Russians have had great successes in the past 48 hours with some 18 Russian villages recaptured and one large white Russian city believed to be Gomel which was reported in German hands last week.

Leningrad will have the fate of Warsaw. One thing seemed certain the Reds will defend it and before it is taken thousands and maybe hundreds of thousands of the German army will have been slain.

The Russian-British invasion of Iran was progressing rapidly.

The main prize thus far is the oil pipe lines at the head of the Persian Gulf which yield some 300,000 barrels of oil a day which is enough to supply the entire British Navy.

Little or no resistance has been met from the Persian forces.

The British have landed new and more powerful forces at Singapore. Mr. Churchill in his speech of Sunday warned the Japs that aggression must stop.

200,000 TROOPS IN NEAR EAST SMASH

More than 200,000 Russian and British troops supported by units of the RAF and Red air force, had swept far enough into Iran Tuesday to take over rich oil fields and to command points of vantage in all vital sectors of Persia.

The British were hopeful of obtaining from the Psha an agreement on which to base a peaceful settlement of the issue. The British and Russian armies invaded Iran because of what they termed German Fifth Column activities and to forestall a German invasion of the same country.

The thrust into Iran was so swift and thorough little opposition is believed possible from the Iran armies.

Germany and Japan were boiling mad over Allied operations in the near East. Invasions are reserved for the Germans and the Japs. The Italians are out of the picture, Mussolini is no more.

The primary objective of the invasion is to forestall German activities in Iran and the second objective may have been to preserve the great oil fields and prevent their falling into the hands of the Germans.

If the Germans gain possession of the oil lands it will be only after a major war in the near east.

While war flamed in ancient Persia the Germans were making some progress in the Leningrad area but for the most part, said dispatches, they were bogged down with heavy rain storms making their position extremely difficult.

Gomel may have been retaken by the Russians on the central front.

The Moscow radio said that a very large white Russian city has been retaken by the Reds and this would indicate Gomel which was taken by the Germans last week. In all some 15 towns have been re-captured in the central area.

Mrs. Ella McLerran and Mrs. Florence Randle visited in the home of Mrs. Ellie Weems.

Milam Theatre to Get New Face; Will Be Modern Play House

The Milam Theatre, recently destroyed by fire, was under reconstruction this week.

The Theatre was named for Ben Milam, hero of the Texas revolution and for whom Milam county is named. Mr. Swift, owner of the theatre said that extensive improvements are planned.

Chief among the improvements will of course be the interior of the show house with entirely new decorations and furnishings.

An architect drawing disclosed a modern front with the ticket booth placed to the east side of the lobby and the older center window taken out. Patrons will pass by the ticket booth and on to the main entrance.

A special aisle and stairway is provided for colored.

The front of the theatre is to be raised with a V shaped projection and the latest neon signs. The old awning will disappear. The front is to be brilliantly lighted and decorated.

The Milam Theatre was Cameron's first talking picture theatre and was then the New Hefley. The Cameron was at that time the Wonderland.

Mr. Swift in order to provide the best comfort and modern picture houses is making extensive improvements in both theatres.

During the process of repairs on the Milam all programs scheduled for that theatre in August will be shown at the Cameron on Saturday only. A midnight preview will show pictures scheduled for August at the Cameron on Saturday.

Blake Conoley of Conoley was in Cameron on business Friday.

Lindberg Denied Use Of Oklahoma City Auditorium for Speech

The City Council of the City of Oklahoma early Tuesday met in extra session to deny Col. Chas. Lindberg, use of the municipal auditorium for a speech under the For America First Committee.

Several hundred citizens representing various civic organizations of the city protested to the council. Mainly the protest originated with members of the American Legion.

Recently a similar action was taken against Senator Burton K. Wheeler by the city council of Atlanta, Ga.

BIG SUCCESSES ARE SCORED BY GERMANS

Russian armies have begun to crumble said a statement from the German High Command at noon Friday.

The city of Leningrad which was the capital of the Czars and known for hundreds of years as St. Petersburg, was under siege. The Reds admitted that their armies had been shattered in the Ukraine and that Odessa is doomed. At the same time the Soviet high command said that reverses had been suffered on the central front.

The central front is on the road to Moscow. Heavy fighting was in progress around Leningrad, Russia's second largest city with a population of three million. It was announced that the Russians were preparing to defend the city and if unable will burn it.

The Daily Herald heard a report that Germany is now massing troops in Bulgaria. This was taken as a threat to Turkey and a forth coming demand for transportation through Turkey and the Dardanelles.

President Roosevelt today engaged in his usual criticism of American appeasers. The Washington front seemed definitely stagnated, with the German armies apparently now beginning conquest of Russia with prospects of finishing off the Reds before the winter.

The plight of England as well as the United States was increased because neither is apparently willing to fight.

Harriet Mode, Area Supervisor of Public Welfare of Bryan transacted business in Cameron Wednesday.

THE U. S. O. HOW IT OPERATES

Under our plan of government, the United States can build a building or the sort of thing that Mrs. America demands for her son, but it cannot supply the morals. Morals are an affair of the heart and soul. American Government keeps its hands off the soul. We can not stand for the mixing up of the soul with earthly sovereignty. Maybe we are wrong about that—Hitler thinks so and Mussolini thinks so and Stalin is sure of it. But, anyhow, Washington respects our American ideas about that.

There has to be, then, some agency to supply the moral atmosphere and

the moral leadership which young soldiers and sailors need during their first hitch away from home. Older service men need it, too, but if they don't get it in their early enlistment, it is likely to come too late thereafter.

Well, there is such an agency: USO.

Pen your heart—open your purse—give to the USO.

We built our camps and defense plants quickly. Towns adjacent to them were not ready to play host to multitudes of soldiers, sailors and defense workers off duty.

Somewhere in the South is a cantonment of 40,000 soldiers. A few miles away is a small community of 17,000 people. Picture the scene

when a considerable percentage of those 40,000 men are turned loose in that small town.

Your typical citizen-soldier is quite young. Off duty, he is looking for something of what has been his life at home. What therefore can we do to get the boys off the street corners, to counsel homesick youngsters, to plan morale-boosting

recreation?

It is a challenge to America. And a chance, too, to show the defense forces that a united nation stands behind them.

Give to the USO.

E. L. McGuire of Rockdale transacted business in Cameron Wednesday.

CHARLIE SMITH, Jr.

FOR REPRESENTATIVE

I will thank you to give me your consideration and vote at Saturday's Election. Remember that the business of the Legislature is to make the laws under which we live. I am the only candidate in the race who has a substantial knowledge of the law of Texas. What could be more necessary to a man seeking to serve you as Representative than that he have this knowledge?

Some of my opponents have had great opportunities and positions of trust during their lifetimes, but at the moment of crisis they failed. There is no substitute for character. Either a man has it, or he doesn't. I ask you to think about this—who could serve you and Texas best? An older man who has had many chances and opportunities to work for and serve his fellowman, but who has repeatedly failed? Or a younger man with his life ahead of him, and who has the sincere desire to work for and serve you?

I will appreciate your support, and will endeavor to merit your confidence by rendering you faithful and capable service.

CHARLIE SMITH, Jr.

VACATION IS OVER
